

BSC Level 2 Award in COSHH Risk Assessment

Introduction

The Control of Substances Hazardous to Health Regulations 2002 (COSHH) require employers to control exposure to hazardous substances to prevent ill-health. The Level 2 Certificate in COSHH Risk Assessment provides formal recognition of an individual's ability to undertake a COSHH risk assessment in line with the Health and Safety Executive's Approved Code of Practice.

Course Objectives

Our training utilizes the very latest learning methods, with special emphasis on participative and interactive techniques. Overall, the aim of our training is to share knowledge and practical experience and, through tutor-led sessions, build on that experience so that every participant is able to manage risk assessment effectively and realistically.

The training sets out to develop sound and practical knowledge and understanding for day-to-day application in the workplace and prepares each participant for the Level 2 qualification assessment.

Course Content

- Reasons for Conducting COSHH Risk Assessments
- Main Legislation Relating to COSHH Risk Assessment
