

BSC Level 2 Award in Fire Risk Assessment

Introduction

The Level 2 Certificate in Fire Risk Assessment provides formal recognition of an individual's ability to undertake a fire risk assessment in line with the Health and Safety Executive's guidance.

Course Objectives

Our training utilises the very latest learning methods, with special emphasis on participative and interactive techniques. Overall, the aim of our training is to share knowledge and practical experience and, through tutor-led sessions, build on that experience so that every participant is able to manage risk assessment effectively and realistically. The training sets out to develop sound and practical knowledge and understanding for day-to-day application in the workplace and prepares each participant for the Level 2 qualification assessment.

Duration: 1 Day Course
