

Health & Safety Legislation

Introduction

Designed for all those requiring an update on Legislation, including those that completed IOSH Managing Safely and NEBOSH General Certificated courses 3-5 years previous.

This interactive programme is designed to provide delegates with an overview of new legislation as it comes into force and to review recent case law studies of the impact of not complying to its requirements. The programme will enable delegates to update their knowledge and understand the implications to their workplace and Safety management systems.

Duration: 1 Day Course
