

NEBOSH International General Certificate in Occupational Health & Safety IGC1/IGC2 and IGC3

Course Description

IGC1

The IGC1 Unit is the core module of several NEBOSH Certificates as it provides essential training in areas such as risk assessment and health and safety auditing practices. The IGC1 unit has been designed to not only give you a well-rounded knowledge of health and safety, but to also provide a foundation platform for continuing into more NEBOSH units and specialised training areas. IGC1 unit provides essential elements that cover health and safety in the workplace.

In addition to the IGC1 unit, each NEBOSH Certificate contains its own set of approved learning books that will develop knowledge for health and safety management. NEBOSH Certificates are nationally recognised qualifications that will assist you and your organisation by lowering the risk of hazards and hazard management.

GC2

This GC2 Unit is part of the NEBOSH International Certificate in Occupational Health & Safety General Certificate course

The GC2 unit aims to take develop your knowledge and understanding further in all aspects of hazard management and control. The GC2 Unit focuses on key areas such as general workplace safety-work equipment, working at heights, plant, facilities, physiological-stress, mental first aid, noise, vibration, biological, electrical and fire hazards etc. The aim of this unit is to assist you in identifying signs of developing hazards in the workplace.

The GC2 unit is part of the overall NEBOSH International General Certificate in Occupational Health & Safety and therefore provides all knowledge and understanding of health and safety management.

All NEBOSH Certificates are accepted by the Institution of Occupational Safety and Health as meeting the academic requirements for Technician membership of IOSH (Tech IOSH) and is accredited to Level 3 within the National Qualification Framework.

The International Institute of Risk and Safety Management (IIRSM) also accept NEBOSH Certificates as meeting the requirements for associate membership.
