

NEBOSH NGC1 Revision Day

Revision day objectives:

Our NEBOSH revision workshops are designed to provide an interactive study environment, to re-enforce key topics and course content that would have previously been covered, together with a review of exam techniques for maximising results.

Who is the Revision workshop aimed for?

Those that have recently completed the NGC1 unit and require additional support with their learning and exam techniques prior to the examination and also for those that are soon to re-sit the examination seeking an improved outcome.

WORKSHOP DURATION: 1 Day,

(Examination re-sits would be completed on a separate day to the Revision workshop)

(The fees do not include exam re-sit costs)

Workshop content:

- Review and refresh previous key topics and course content
- Discuss revision and exam techniques to meet different learning styles
- Practice exam style questions, receiving feedback from the Trainer and group
- Review examiners reports and feedback to learn how to avoid common mistakes with your exam answers
- Discuss any technical queries
- Review best practice for self study
